Public Engagement Portal: Are Your Programs Represented?

The Public Engagement Portal, found at http://engage.illinois.edu, is designed to be the most comprehensive source for information about public engagement programs and events offered by the Urbana-Champaign campus. You will find descriptions and contact information for a variety of University-related programs and events that are intended for the public, including workshops, seminars, summer camps, and festivals. The Portal shares about 1,000 ongoing and upcoming programs, with thousands of residents searching the information each month.

Do you know what programs and events the University offers for the public? Is your information represented? Visit http://engage.illinois.edu to find out. Want to learn more? Register for our information session on February 21 by visiting http://engage.illinois.edu/signup.
